DIVERS AND SCUBA AGENCIES IN THE WORLD

How Many Scuba Divers are there?

The scuba diving industry is very big, however, as it is not a regulated industry, getting an exact number of scuba enthusiasts proves to be difficult.

It is estimated that 9 million people are currently in an "active" dive status. As many people still manually log their dives, it means that many divers slip through the cracks when we count how many scuba divers there are in the world.

PADI® is the world's leading scuba diver organization, issuing more than 28 million diver certifications since 1967.

- There are more than 128,000 PADI professional members around the globe.
- There are 6,600 PADI Dive Centers and Resorts worldwide.
- 3.3 million Americans who are certified scuba divers.
- 30.6% of scuba divers are women and 69.4% of scuba divers are men.
